

**Music and Media – Mr. Wie**  
**13 February 2006**

This week, we will get the software installed and begin working on engraving a score.

The first step is to obtain the engraver program at: <http://lilypond.org/web/install/>  
And install it to your machine. Versions are available for almost every kind of operating system in existence (Mac OS X, Windows, Linux, etc.) and you will need to select the appropriate version from the download page. Once it is downloaded, install the program by double-clicking on the file.

Using Lilypond **can** be a complex process, if you do not read the instructions. Here you will find a tutorial on all of the basic features of the program necessary to handle the upcoming assignment (this is also posted on the class website):

<http://lilypond.org/doc/v2.6/Documentation/user/lilypond/Tutorial.html>

**USE OF THIS TUTORIAL IS ABSOLUTELY REQUIRED FOR  
BASIC COMPREHENSION OF THE USE OF THE ENGRAVING  
SOFTWARE.**

**ASSIGNMENT NO. 1 - PART 2**

1. Install Lilypond.
2. Install a supporting text editor from the class webpage if you do not like using Windows Notepad.
3. Read the Tutorial in its entirety.
4. Attempt to engrave the following tune:

Twinkle Twinkle Little Star (1781/1782)  
by W.A. Mozart

A A E E F# F# E  
D D C# C# B B A  
E E D D C# C# B  
E E D D C# C# B  
A A E E F# F# E  
D D C# C# B B A
